

# Recommendation Letter

To Whom It May Concern,

I am pleased to recommend **Oh Jie Han**, whom I supervised during his internship with the DDR IP Design team at Lattice Semiconductor Malaysia from 16 June to 12 September 2025. During this period, he contributed positively to the team and gained solid technical and professional experience.

Jie Han demonstrated a strong willingness to learn and applied his academic foundation effectively in real engineering tasks, including DDR IP usability improvements, firmware restructuring, and IP debugging. He contributed to enhancing DDR IP example design usability, simplifying LPDDR4 firmware, and analyzing protocol behavior during debugging activities. He showed good problem-solving skills, attention to detail, and a positive, collaborative attitude throughout his internship.

Overall, Jie Han is a motivated, capable, and thoughtful engineer who approaches problems methodically and is receptive to feedback. I am confident he will continue to grow into a strong engineer and make meaningful contributions in his future roles. I recommend him without reservation.

Please feel free to contact me should you require any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Yun Hui Moh".
